New Feature in Life Insurance. The new feature in Life Insurance which has just been introduced into the United States can hardly be duly estimated, and should receive

that attention from our Government which the importance of the subject imperatively demands; for funds provided for the widow and orphan in the hour of need, however carefully cherished or guarded, are liable to the vicissitudes of human affairs.

The North America Life Insurance Company of the city of New York, in the execution of the high and solemn trust confided to it, has introduced a wise, precautionary, and parental policy, which gives to the assured the utmost security, and places the Company upon a solid and permanent basis.

and rermanent basis.

By special act of the New York Legislature, at its last session, this Company is enabled to issue Insurance policies and Annuity Bonds, secured by deposits in the Insurance Department of the State. These special deposits invested in public securities, are held by the State until the obligations incurred by the Company have been fally liquidated. Registered Policies, similar to the United States coupon bonds, and bearing the scal and counter-signature of the Superintendent of the Insurance Department, are tendent of the Insurance Department, are granted by the State authorities to the Company, which from time to time makes deposits equal to the net value of the policies issued, computed according to the "Carlisle table of mortality."

The great Empire State of New York, in area equal to the whole of England; in wealth, trade, and commerce superior to many of the great powers of Europe, thus becomes the guardian of this great public trust, securing to the widow and orphan the savings of the provident husband and parent, beyond any possible misad-

venture or contingency.

Here is a lesson of wisdom!

What mestimable blessings would accrue to the life-insuring public if the Government of this country, whose paternal solicitude should be devoted to the prosperity and happiness of its people, would adopt a similar principle, and effectually secure the funds of these great institutions which rear and support the de-pendent, solace the afflicted, uphold the State, and diffuse general happiness among all those who have the good fortune to be protected by its be nedicent influence! - London Advertiser.

A CURIOUS CASE OF OBTAINING GOODS UNDER FALSE PRETENSES .- The firm of Goldsmith Market street, discovered that a man named John S. Goldsmith had been using their name without their knowledge or consent in New York. It seems that Goldsmith, who is a young Englishman, called on Mr. John Schlessinger, dealer in cloth, at No. 404 Broadway, New York, and represented himself as one of firm of Goldsmith & Co. sented himself as one of firm of Goldsmith & Co, and purchased a lot of goods for the firm from Mr. Schlessinger on sixty days' credit, and directed them to be sent to a certain address in this city. Before doing so, Mr. Schlessinger telegraphed to the firm of Goldsmith & Co., John S. Goldsmith writing out the telegram and signing it with the name of "Lewis." The goods were brought to this city, and, it appears, were immediately sent back to New York. On Wednesday Goldsmith & Co. received York. On Wednesday Goldsmith & Co. received their bil, and immediately telegraphed back that they had authorized no person to buy goods for them. The New York police, on being notified of the facts of the case, went immediately to ferret it out, and succeeded in arresting Goldsmith, and recovering the goods in a warehouse at the corner of Thirty-eighth street and Eighth avenue.

TAX COMMIS-INTERESTING DECISION OF BIONERS — Under the act of July 13, 1866, imposing a stamp iax on canned packages containing meats. fish, truits, veretables, etc., sold or removed for consumption in the United States on and after the 1st day of October proximo, the Commissioner of In-ternal Revenue has decided that the liability of stamp tax under the amendment of schedule C not only attaches to all such articles put up subsequently to the 1st day of October, 1866, but equally to those put up prior to that date, whether the same shall be in the possession of the persons who put them up or in the hands of the purchaser; and the fact that canned meats, fish, fruit, etc., have previously paid an advalorem tax does not relieve them from the hability, nor give any claim to the owners to have any tax previously paid thereon refunded.

KEEP WARM .- As the cold days have now KEEP WARM.—As the cold days have now set in, it behooves us to provide against the intrusions of old nipping Boreas, by procuring covering of a warm and durable nature. Burns & Atkinson, the well-known dry goods merchants, at No. 247 South Eleventh street, have prepared themselves to meet the wants of the public in this line in as satisfactory a manner as any establishment of the sort in Philadelphia. They have on hand all classes and thicknesses of Woollen Blankers, English and French Membershoothers. rinces, Sheeting, etc., and will give complete satisfaction to whomsoever may call upon them. For further particulars see special announcement in an-

MACHINERY FOR SOUTH AMERICA,-The fame and the superiority of the machinery manufactured in this city are too well known to re-quire any commendatory notice from us: and our quire any commendatory notice from us; and our machinists are constantly in receipt of large orders from foreign countries. The barque Meaco, now loading at Washington street wharf, for Rio de Janeiro, by Messrs, Madeira & Cabada, is taking on board four locomotives, built by M. W. Baldwin & Co., seven tenders, and a mammoth turn-table, made by Sellers & Co., for the Don Pedro Railroad. Messrs Baldwin & Co. have already constructed fourteen locomotives for this road.

TILL-TAPPER.-About 10 o'clock this moreing a man named Edward Moore was arrested by Officer Roberts at the corner of Seventh and Walnut streets. Moore entered the restaurant on wainut streets. Moore entered the restaurant on the northeast corner, and watching an opportunity when, as he supposed, no one was observing his movements, undertook to supply himself with pocket money from the till. But being born under an un-lucky star, he was caught in the act and arrested. He succeeded in abstracting about \$150, when he was arrested. He had a hearing before Recorder Eneu, who committed him in default of \$1000 to

DR. SCHENCK'S PULMONIC SYRUP .- This great medicine cured Dr. J. H. Schenck, the Proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds. Dr Schenck has been equally successful in the treatment of others similarly afflicted.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carages, and in a few months healthy, robust persons Dr. Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three

Please observe, when purchasing, that the two likenesses of the Doctor-one when in the last stage of Consumption, and the other as he now is, in perfect health-are on the Government stamp.

HUMPHREY'S' HOMEOPATHIC SPECIFICS had their origin in a great public want—medicines for all the common wants of enlightened life—curatives that rather, mother, nurse, or traveller could always have with them, and always rely upon—so simple, that mistake could not be made in the selection; so harmless that all might use them with impunity, and so efficient that all might rely upon them with and so emeient that all might rely upon them with salety. Such they have proved. Inousands of families use them daily for all the allments and sicknesses of life, and rarely are seriously sick, or have need to call a physician. Thousands taking some single specific have cured themselves of chronic diseases, which have been the bane of their lives, and upon which they have spent hundreds in value and among the millions was use them. and among the milions who use them, none are found to question their purity or efficacy. Every family should have a case. See advertisement. Acar York Citizen, April 1. 1865.
